TO: Commanding Officer
720th Military Police Battalion

1. I wish to express my gratitude to the members of your command who rendered outstanding support to the 9th Infantry Division during the division's reception and movement of the Royal Thai Army Volunteer Regiment from Newport Terminal to Camp Martin Cox.

2. The personnel who were assigned escort and traffic control responsibilities during this operation performed in a most diligent and outstanding manner. All personnel responded rapidly to changes in the composition of march elements and convoy departure times. Their assistance in marshalling vehicles at the post, providing traffic control points along the route, and controlling the movement of the convoys contributed greatly to the successful consummation of the operation.

3. Please extend my appreciation to the personnel who were assigned this duty for their most outstanding and professional performance.
